

## STATEMENT

*/On not signing the ballot papers/*

We, the signatories of this document, refuse to sign the ballot papers taking into consideration the procedural violations allowed by the Election Committee during the previous meetings, as well as the inaccuracy of data included in the ballot paper and their inconsistency with the real data and facts.

In justification of our statement we once again refer to the facts and factual circumstances included in the previous statement in addition to stating the following:

1. The ballot box includes the first name and the last name of Gabriel Balayan, which is impermissible given that:
  - 1.1. the latter's application was submitted later than the deadline;
  - 1.2. his application was filled in with deficiencies /including that the applicant's CV was not attached/ which were corrected only after G.Balayan was registered as a candidate;
  - 1.3. Justifications about the belatedness of Gabriel Balayan's application were ungrounded, while the reference submitted by G.Balayan was given to him by an employee under his subordination.
2. The ballot paper includes the name of Sona Harutyunyan, whose application was also deficient with the copy of the applicant organization registration certificate missing. This flaw was corrected only after Sona Harutyunyan was registered as a candidate.

Given the above mentioned facts we refuse to sign on the back of the ballot papers and deny the legitimacy of the elections conducted using these ballot papers.

*(Signed by the EC members Vahagn Asryan, Lilit Qamalyan, Tatev Avagyan and Amalya Balabekyan).*
